APPLICATION FOR MODIFICATION ASSESSMENT REPORT

Mod2021/0967

Responsible Officer:	Thomas Prosser
Land to be developed (Address):	Lot 32 DP 233469, 314 Hudson Parade CLAREVILLE NSW 2107
Proposed Development:	Modification of Development Consent DA2020/0143 granted for Alterations and additions to a dwelling house
Zoning:	C4 Environmental Living
Development Permissible:	Yes
Existing Use Rights:	No
Consent Authority:	Northern Beaches Council
Land and Environment Court Action:	No

Tony Brian Walls

Baxter & Jacobson Architects Pty Ltd

Application Lodged:	16/12/2021	
Integrated Development:	No	
Designated Development:	No	
State Reporting Category:	Refer to Development Application	
Notified:	24/12/2021 to 25/01/2022	
Advertised:	Not Advertised	
Submissions Received:	0	
Clause 4.6 Variation:	Nil	
Recommendation:	Approval	

PROPOSED DEVELOPMENT IN DETAIL

The proposal is to modify the consent granted to for alterations and additions under DA2020/0143. In detail, the modification involves:

- Reduction in the overhang of the eaves to the existing garage
- Widening the car space to allow for a double car space
- New roof and enclosing walls to garage
- A new retaining wall
- Widening of internal driveway

ASSESSMENT INTRODUCTION

MOD2021/0967 Page 1 of 16

The application has been assessed in accordance with the requirements of the Environmental Planning and Assessment Act 1979 and the associated Regulations. In this regard:

- An assessment report and recommendation has been prepared (the subject of this report) taking into account all relevant provisions of the Environmental Planning and Assessment Act 1979, and the associated regulations;
- A site inspection was conducted and consideration has been given to the impacts of the development upon the subject site and adjoining, surrounding and nearby properties;
- Notification to adjoining and surrounding properties, advertisement (where required) and referral
 to relevant internal and external bodies in accordance with the Act, Regulations and relevant
 Development Control Plan;
- A review and consideration of all submissions made by the public and community interest groups in relation to the application;
- A review and consideration of all documentation provided with the application (up to the time of determination);
- A review and consideration of all referral comments provided by the relevant Council Officers, State Government Authorities/Agencies and Federal Government Authorities/Agencies on the proposal.

SUMMARY OF ASSESSMENT ISSUES

There are no assessment issues.

SITE DESCRIPTION

Property Description:	Lot 32 DP 233469 , 314 Hudson Parade CLAREVILLE NSW 2107			
Detailed Site Description:	The subject site consists of an allotment located on the western side of Hudson Parade.			
	The site is irregular in shape with a frontage of 31.375m along Hudson Parade and a depth of approximately 50m. The site has a surveyed area of 1620m².			
	The site is located within the E4 Environmental Living zone and accommodates a dwelling house on site.			
	The site involves a slope from Hudson Parade down to the foreshore and contains vegetation across the site			
	Detailed Description of Adjoining/Surrounding Development			
	Adjoining and surrounding development is characterised by residential development			

Map:

MOD2021/0967 Page 2 of 16

SITE HISTORY

The land has been used for residential purposes for an extended period of time. A search of Council's records has revealed the following relevant history:

DA2020/0143 for alterations and additions to the existing dwelling house was approved on 8/04/2020.

Building Compliance Team investigation in to works without consent

Council's Compliance officer investigated the site on 31 January 2020.

The investigation found that there was demolition work that been undertaken without an approval. As such, a Stop Works Order was issued on 5 February under EPA2020/0020.

ENVIRONMENTAL PLANNING AND ASSESSMENT ACT, 1979 (EPAA)

The relevant matters for consideration under the Environmental Planning and Assessment Act, 1979, are:

The application has been assessed in accordance with the requirements of the Environmental Planning and Assessment Act 1979 and the associated Regulations. In this regard:

- An assessment report and recommendation has been prepared and is attached taking into all relevant provisions of the Environmental Planning and Assessment Act 1979 and associated regulations;
- A site inspection was conducted and consideration has been given to the impacts of the development upon all lands whether nearby, adjoining or at a distance;
- Consideration was given to all documentation provided (up to the time of determination) by the applicant, persons who have made submissions regarding the application and any advice given by relevant Council / Government / Authority Officers on the proposal;

In this regard, the consideration of the application adopts the previous assessment detailed in the

MOD2021/0967 Page 3 of 16

Assessment Report for DA2020/0143, in full, with amendments detailed and assessed as follows:

The relevant matters for consideration under Section 4.55(1A) of the Environmental Planning and Assessment Act, 1979, are:

Assessment Act, 1979, are:	
Section 4.55(1A) - Other Modifications	Comments
	ing made by the applicant or any other person entitled to uthority and subject to and in accordance with the
(a) it is satisfied that the proposed modification is of minimal environmental impact, and	Yes The modification, as proposed in this application, is considered to be of minimal environmental impact for the following reasons:
	The proposal maintains compliance with all built form controls, and in so ensures sufficient minimisation in the presentation and environmental impact of building bulk.
(b) it is satisfied that the development to which the consent as modified relates is substantially the same development as the development for which consent was originally granted and before that consent	The development, as proposed, has been found to be such that Council is satisfied that the proposed works are substantially the same as those already approved under DA2020/0143 for the following reasons:
as originally granted was modified (if at all), and	The proposal maintains the use and general presentation of the building, being a dwelling with a garage. The increase in the size of the garage does not significantly change the visual appearance of the development as a whole, and compliance is maintained with built form controls. As such, the proposal will be substantially the same as the original consent.
(c) it has notified the application in accordance with:	The application has been publicly exhibited in accordance with the Environmental Planning and Assessment Act 1979, Environmental Planning and
(i) the regulations, if the regulations so require,	Assessment Regulation 2000, and the Northern Beaches Community Participation Plan.
or	
(ii) a development control plan, if the consent authority is a council that has made a development control plan under section 72 that requires the notification or advertising of applications for modification of a development consent, and	
(d) it has considered any submissions made concerning the proposed modification within any period prescribed by the regulations or provided by the development control plan, as the case may be.	No submissions were received in relation to this application.

Section 4.15 Assessment

MOD2021/0967 Page 4 of 16

In accordance with Section 4.55 (3) of the Environmental Planning and Assessment Act 1979, in determining an modification application made under Section 4.55 the consent authority must take into consideration such of the matters referred to in section 4.15 (1) as are of relevance to the development the subject of the application.

The relevant matters for consideration under Section 4.15 of the Environmental Planning and Assessment Act, 1979, are:

Section 4.15 'Matters for	Comments			
Consideration'				
Section 4.15 (1) (a)(i) – Provisions of any environmental planning instrument	See discussion on "Environmental Planning Instruments" in this report.			
Section 4.15 (1) (a)(ii) – Provisions of any draft environmental planning instrument	Draft State Environmental Planning Policy (Remediation of Land) seeks to replace the existing SEPP No. 55 (Remediation of Land). Public consultation on the draft policy was completed on 13 April 2018. The subject site has been used for residential purposes for an extended period of time. The proposed development retains the residential use of the site, and is not considered a contamination risk.			
Section 4.15 (1) (a)(iii) – Provisions of any development control plan	Pittwater Development Control Plan applies to this proposal.			
Section 4.15 (1) (a)(iiia) – Provisions of any planning agreement	None applicable.			
Section 4.15 (1) (a)(iv) – Provisions of the Environmental Planning and Assessment Regulation 2000 (EP&A Regulation 2000)	<u>Division 8A</u> of the EP&A Regulation 2000 requires the consent authority to consider Prescribed conditions of development consent. These matters have been addressed via a condition in the original consent.			
	<u>Clauses 54 and 109</u> of the EP&A Regulation 2000 allow Council to request additional information. No additional information was requested in this case.			
	Clause 92 of the EP&A Regulation 2000 requires the consent authority to consider AS 2601 - 1991: The Demolition of Structures. This matter has been addressed via a condition in the original consent.			
	Clause 98 of the EP&A Regulation 2000 requires the consent authority to consider the provisions of the Building Code of Australia (BCA). This matter has been addressed via a condition in the original consent.			
Section 4.15 (1) (b) – the likely impacts of the development, including environmental impacts on the natural and built environment and social and economic impacts in	(i) Environmental Impact The environmental impacts of the proposed development on the natural and built environment are addressed under the Pittwater Development Control Plan section in this report.			
the locality	(ii) Social Impact The proposed development will not have a detrimental social impact in the locality considering the character of the proposal.			
	(iii) Economic Impact			

MOD2021/0967 Page 5 of 16

Section 4.15 'Matters for Consideration'	Comments
	The proposed development will not have a detrimental economic impact on the locality considering the nature of the existing and proposed land use.
Section 4.15 (1) (c) – the suitability of the site for the development	The site is considered suitable for the proposed development.
Section 4.15 (1) (d) – any submissions made in accordance with the EPA Act or EPA Regs	See discussion on "Notification & Submissions Received" in this report.
Section 4.15 (1) (e) – the public interest	No matters have arisen in this assessment that would justify the refusal of the application in the public interest.

EXISTING USE RIGHTS

Existing Use Rights are not applicable to this application.

BUSHFIRE PRONE LAND

The site is not classified as bush fire prone land.

NOTIFICATION & SUBMISSIONS RECEIVED

The subject development application has been publicly exhibited from 24/12/2021 to 25/01/2022 in accordance with the Environmental Planning and Assessment Act 1979, Environmental Planning and Assessment Regulation 2000 and the Community Participation Plan.

As a result of the public exhibition of the application Council received no submissions.

REFERRALS

Internal Referral Body	Comments		
Landscape Officer	The application is for modifications to development consent DA2020/0143, including the following internal works: widening of the existing 1.5 car width car space to double width garage; widening of the internal access drive; and associated earthworks and retaining walls. The modification proposal does not impact the landscape outcome of the property.		
NECC (Bushland and Biodiversity)	The modification application has been assessed against the following applicable provisions:		
	 NSW Biodiversity Conservation Act 2016 Pittwater LEP Clause 7.6 (Biodiversity Protection) Pittwater DCP B4.7 (Pittwater Spotted Gum Forest Endangered Ecological Community) SEPP (Coastal Management) - Coastal Environment Area 		
	The mapped Pittwater Spotted Gum Forest Threatened Ecological		

MOD2021/0967 Page 6 of 16

Internal Referral Body	Comments
	Community (TEC) which occurs at the front of the site and within the adjoining road reserve has been added to the NSW Government's Biodiversity Values Map and the Coastal Management SEPP since consent was granted for the original DA. In accordance with the BC Act, impact to any native vegetation identified on the Biodiversity Values Map will trigger entry into the Biodiversity Offsets Scheme and require preparation of a Biodiversity Development Assessment Report (BDAR). Site investigation indicates that the area of the proposed modification is not vegetated and as such, the proposal will not impact upon native vegetation identified on the Biodiversity Values Map and is generally consistent with local planning controls.
NECC (Coast and Catchments)	The modification application has been assessed in consideration of the Coastal Management Act 2016, State Environmental Planning Policy (Coastal Management) 2018 and has also been assessed against requirements of the Pittwater LEP 2014 and Pittwater 21 DCP.
	Coastal Management Act 2016 The subject site has been identified as being within the coastal zone and therefore Coastal Management Act 2016 is applicable to the proposed development. The proposed development is in line with the objects, as set out under Clause 3 of the Coastal Management Act 2016.
	State Environmental Planning Policy (Coastal Management) 2018 The subject land has been included on the 'Coastal Environment Area' and 'Coastal Use Area' maps under the State Environmental Planning Policy (Coastal Management) 2018 (CM SEPP). Hence, Clauses 13, 14 and 15 of the CM SEPP apply for this DA.
	Comment:
	On internal assessment, the DA satisfies requirements under clauses 13, 14 and 15 of the CM SEPP.
	As such, it is considered that the application does comply with the requirements of the State Environmental Planning Policy (Coastal Management) 2018.
	Pittwater LEP 2014 and Pittwater 21 DCP
	Development on Foreshore Area

MOD2021/0967 Page 7 of 16

Internal Referral Body Comments				
	A section of the subject property is within the foreshore building line. Part 7, Clause 7.8 –Limited development on foreshore area of the Pittwater LEP 2014 applies for any development within the foreshore area.			
	The DA proposes no works on the foreshores area and hence, the DA does not require to satisfy the objectives and requirements of Part 7, Clause 7.8 of the Pittwater LEP 2014.			
NECC (Development Engineering)	No objections for approval subject to additional conditions as recommended.			
NECC (Riparian Lands and Creeks)	This application has been assessed against relevant legislation and policy relating to waterways, riparian areas, and groundwater. As this site drains into Pittwater, the development must not significantly impact on the biophysical, hydrological or ecological integrity of these waters, or on the quantity and quality of surface and ground water flows to creeks or the waterway. Sediment and erosion controls must be installed prior to any disturbance of soil on site and maintained until all work is complete and groundcover reestablished. This application, subject to conditions, is supported as it is unlikely to have an adverse effect on the integrity and resilience of the biophysical, ecological and hydrological environment of Pittwater and its surrounding environment if conditions are adhered to.			
Parks, reserves, beaches, foreshore	The application is for modifications to development consent DA2020/0143, including the following internal works: widening of the existing 1.5 car width car space to double width garage; widening of the internal access drive; and associated earthworks and retaining walls.			
	The modification proposal does not impact the foreshore outcome.			

External Referral Body	Comments
	The proposal was referred to Ausgrid who provided a response stating that the proposal is acceptable subject to compliance with the relevant Ausgrid Network Standards and SafeWork NSW Codes of Practice. These recommendations will be included as a condition of consent.

MOD2021/0967 Page 8 of 16

ENVIRONMENTAL PLANNING INSTRUMENTS (EPIs)*

All, Environmental Planning Instruments (SEPPs, REPs and LEPs), Development Controls Plans and Council Policies have been considered in the merit assessment of this application.

In this regard, whilst all provisions of each Environmental Planning Instruments (SEPPs, REPs and LEPs), Development Controls Plans and Council Policies have been considered in the assessment, many provisions contained within the document are not relevant or are enacting, definitions and operational provisions which the proposal is considered to be acceptable against.

As such, an assessment is provided against the controls relevant to the merit consideration of the application hereunder.

State Environmental Planning Policies (SEPPs) and State Regional Environmental Plans (SREPs)

SEPP 55 - Remediation of Land

Clause 7 (1) (a) of SEPP 55 requires the Consent Authority to consider whether land is contaminated. Council records indicate that the subject site has been used for residential purposes for a significant period of time with no prior land uses. In this regard it is considered that the site poses no risk of contamination and therefore, no further consideration is required under Clause 7 (1) (b) and (c) of SEPP 55 and the land is considered to be suitable for the residential land use.

SEPP (Building Sustainability Index: BASIX) 2004

A BASIX certificate has been submitted with the application (see Certificate No. A365278).

A condition has been included in the recommendation of this report requiring compliance with the commitments indicated in the BASIX Certificate.

SEPP (Infrastructure) 2007

Ausgrid

Clause 45 of the SEPP requires the Consent Authority to consider any development application (or an application for modification of consent) for any development carried out:

- within or immediately adjacent to an easement for electricity purposes (whether or not the electricity infrastructure exists).
- immediately adjacent to an electricity substation.
- within 5.0m of an overhead power line.
- includes installation of a swimming pool any part of which is: within 30m of a structure supporting an overhead electricity transmission line and/or within 5.0m of an overhead electricity power line.

Comment:

The proposal was referred to Ausgrid who raised no objections, subject to conditions which have been included in the recommendation of this report.

THREATENED SPECIES, POPULATIONS OR ECOLOGICAL COMMUNITIES

The proposal will not significantly affect threatened species, populations or ecological communities, or their habitats.

CRIME PREVENTION THROUGH ENVIRONMENTAL DESIGN

The proposal is consistent with the principles of Crime Prevention Through Environmental Design.

POLICY CONTROLS

Northern Beaches Section 7.12 Contributions Plan 2021

Section 7.12 contributions were levied on the Development Application.

CONCLUSION

The site has been inspected and the application assessed having regard to all documentation submitted by the applicant and the provisions of:

- Environmental Planning and Assessment Act 1979;
- Environmental Planning and Assessment Regulation 2000;
- All relevant and draft Environmental Planning Instruments;
- Pittwater Local Environment Plan;
- Pittwater Development Control Plan; and
- Codes and Policies of Council.

This assessment has taken into consideration the submitted plans, Statement of Environmental Effects, all other documentation supporting the application and public submissions, and does not result in any unreasonable impacts on surrounding, adjoining, adjacent and nearby properties subject to the conditions contained within the recommendation.

In consideration of the proposal and the merit consideration of the development, the proposal is considered to be:

- Consistent with the objectives of the DCP
- Consistent with the zone objectives of the LEP
- Consistent with the aims of the LEP
- Consistent with the objectives of the relevant EPIs
- Consistent with the objects of the Environmental Planning and Assessment Act 1979

It is considered that the proposed development satisfies the appropriate controls and that all processes and assessments have been satisfactorily addressed.

MOD2021/0967 Page 12 of 16

RECOMMENDATION

THAT Council as the consent authority grant approval to Modification Application No. Mod2021/0967 for Modification of Development Consent DA2020/0143 granted for Alterations and additions to a dwelling house on land at Lot 32 DP 233469,314 Hudson Parade, CLAREVILLE, subject to the conditions printed below:

A. Add Condition No.1A - Modification of Consent - Approved Plans and supporting Documentation to read as follows:

The development must be carried out in compliance (except as amended by any other condition of consent) with the following:

a) Modification Approved Plans

Architectural Plans - Endorsed with Council's stamp			
Drawing No.	Dated	Prepared By	
CC02 - Site Plan - Waste Management/ Sediment Control Plan - Rev J	29/11/2021	Baxter and Jacobsen	
CD134 - Garage Carport/Setout - Rev E	29/11/2021	Baxter and Jacobsen	
CD143 - North/South Elevation - Rev D	29/11/2021	Baxter and Jacobsen	

Engineering Plans			
Drawing No.	Dated	Prepared By	
DA01-DA04 - Stormwater Plans	December 2019	NB Consulting Engineers	

Reports / Documentation – All recommendations and requirements contained within:			
Report No. / Page No. / Section No. Dated Prepared By			
Ausgrid Letter	21/01/2022	Ausgrid	
Geotechnical Investigation	16 December 2019	White Geotechnical Group	
Geotechnical Appendum	3 December 2021	White Geotechnical Group	

- b) Any plans and / or documentation submitted to satisfy the Conditions of this consent.
- c) The development is to be undertaken generally in accordance with the following:

Waste Management Plan			
Drawing No.	Dated	Prepared By	
Waste Management Plan	04.12.19	Applicant	

Reason: To ensure the work is carried out in accordance with the determination of Council and approved plans.

MOD2021/0967 Page 13 of 16

A. Add Condition 8A - Installation and Maintenance of Sediment and Erosion Controls to read as follows:

Council proactively regulates construction sites for sediment management.

Sediment and erosion controls must be installed in accordance with Landcom's 'Managing Urban Stormwater: Soils and Construction' (2004) and the Erosion and Sediment Control Plan prior to commencement of any other works on site.

Erosion and sediment controls are to be adequately maintained and monitored at all times, particularly after periods of rain, and shall remain in proper operation until all development activities have been completed and vegetation cover has been re-established across 70 percent of the site, and the remaining areas have been stabilised with ongoing measures such as jute mesh or matting.

Reason: Protection of the receiving environment.

B. Add Condition 7A - Stormwater Disposal to read as follows:

The applicant is to demonstrate how stormwater from the new development within this consent is disposed of to an existing approved system or in accordance with Northern Beaches Council's Water Management for Development Policy. Details by an appropriately qualified and practicing Civil Engineer demonstrating that the existing approved stormwater system can accommodate the additional flows, or compliance with the Council's specification are to be submitted to the Certifying Authority for approval prior to the issue of the Construction Certificate.

Reason: To ensure appropriate provision for disposal and stormwater management arising from development.

C. Add Condition 7B - Structural Adequacy and Excavation work to read as follows:

Excavation work is to ensure the stability of the soil material of adjoining properties, the protection of adjoining buildings, services, structures and / or public infrastructure from damage using underpinning, shoring, retaining walls and support where required. All retaining walls are to be structurally adequate for the intended purpose, designed and certified by a Structural Engineer, except where site conditions permit the following:

- (a) maximum height of 900mm above or below ground level and at least 900mm from any property boundary, and
- (b) Comply with AS3700, AS3600 and AS1170 and timber walls with AS1720 and AS1170.

Details demonstrating compliance are to be submitted to the Principal Certifying Authority prior to the issue of the Construction Certificate.

Reason: To provide public and private safety.

D. Add Condition 7C - Geotechnical Report Recommendations have been Incorporated into Designs and Structural Plans to read as follows:

The recommendations of the risk assessment required to manage the hazards as identified in the Geotechnical Report and Geotechnical letter prepared by White Geotechnical Group dated 16/12/2019 and 3/12/2021 are to be incorporated into the construction plans. Prior to issue of the Construction Certificate, Form 2 of the Geotechnical Risk Management Policy for Pittwater (Appendix 5 of P21 DCP) is to be completed and submitted to the Accredited Certifier. Details demonstrating compliance are to

MOD2021/0967 Page 14 of 16

be submitted to the Principal Certifying Authority prior to the issue of the Construction Certificate.

Reason: To ensure geotechnical risk is mitigated appropriately.

E. Add Condition 7D - Geotechnical Form 3 to read as follows:

The Applicant is to submit the completed Form 3 of the Geotechnical Risk Management Policy (Appendix 5 of P21 DCP) to the Principal Certifying Authority prior to issue of the Occupation Certificate.

Reason: To ensure geotechnical risk is mitigated appropriately.

F. Add Condition 9A - Wildlife Protection to read as follows:

If construction activity associated with this development results in injury or displacement of a native mammal, bird, reptile or amphibian, a registered wildlife rescue and rehabilitation organisation must be contacted for advice.

Reason: To protect native wildlife.

G. Add Condition 11 - No Weeds imported on to the site to read as follows:

No Priority or environmental weeds (as specified in the Northern Beaches Local Weed Management Plan 2019 – 2023) are to be imported on to the site prior to or during construction works.

Details demonstrating compliance are to be submitted to the Principal Certifying Authority prior to issue of any Occupation Certificate.

Reason: To reduce the risk of site works contributing to spread of Priority and environmental weeds.

H. Add Condition 12 - Stormwater Disposal to read as follows:

The stormwater drainage works shall be certified as compliant with all relevant Australian Standards and Codes by a suitably qualified person. Details demonstrating compliance are to be submitted to the Principal Certifying Authority prior to the issue of any interim / final Occupation Certificate.

Reason: To ensure appropriate provision for the disposal of stormwater arising from the development.

In signing this report, I declare that I do not have a Conflict of Interest.

Signed

Thomas Prosser, Planner
