RE: REV2022/0024 - 394 Barrenjoey Road NEWPORT NSW 2106

The Newport Surf Life Saving Club rebuild is a very worthwhile project and will deliver positive benefits to the community. It will provide a modern facility for vital Surf Life Saving services to be provided by volunteers to keep our beaches safe for all users as well It will be a valuable community asset to be used by many different groups unable to source their own meeting spaces e.g volunteer mental health groups.

Aesthetically it will be a point of destination for visitors to the Northern Beaches which benefit local businesses.

As President of Collaroy Surf Life Saving Club we fully support the Newport SLSA development application in its entirety.

Greg Broome
