**RE: DA2023/0995 - 54 Brighton Street FRESHWATER NSW 2096**

I used to live in Brighton St, opposite the proposed development. I can't believe that this beautiful street is going to become a solid block of two/three story apartments like Dee Why. I have no problem using the larger blocks to accommodate two houses but don't kill the environment.

Also, and primarily, the council failure to manage stormwater over the years is a major problem. I have personally witnessed the flooding damage down Waratah and through 54/56 across 63/675/67 and down to Bennett St and believe that any development that increases this potential damage should not go ahead.
