| 6 PM  | 6:00 - 6:30                | 6:00 - 6:30                | 6:00 - 6:30                | 6:00 - 6:30                | 6:00 - 6:30                | 6:00 - 6:30                 | 6:00 - 6:30                | 6:00 - 6:30                | 6:00 - 6:30                | 6:00 - 6:30                | 6:00 - 6:30                 |      |
|       |                            |                            |                            |                            |                            |                             |                            |                            |                            |                            |                             |      |
| 7 PM  |                            |                            |                            |                            |                            |                             |                            |                            |                            |                            |                             |      |

**X** = Practitioner not in clinic. Doing house calls at aged care facilities

\*\*\*\*Each appointment colour, regardless of colour, reflects a single patient. When stacked next to each other, this reflects multiple patients. See example below

9:30 - 10:00 = 1 patient  
 10:00 - 10:30 = 4 patients  
 10:45 - 11:15 = 1 patient  
 11:15 - 11:45 = 1 patient
