

## Natural Environment Referral Response - Biodiversity

<b>Application Number:</b>	DA2021/2119
<b>Date:</b>	07/12/2021
<b>Responsible Officer</b>	Claire Ryan
<b>Land to be developed (Address):</b>	Lot 1 DP 800640 , 154 Avalon Parade AVALON BEACH NSW 2107

### Reasons for referral

This application seeks consent development on land, or within 40m of land, containing:

- All Development Applications on
- Actual or potential threatened species, populations, ecological communities, or their habitats;
- Wildlife corridors;
- Vegetation query stipulating that a Flora and Fauna Assessment is required;
- Vegetation query - X type located in both A & C Wards;

And as such, Council's Natural Environment Unit officers are required to consider the likely potential environmental impacts.

### Officer comments

The application seeks approval for the removal of an existing timber fence, and construction of a new fence around the property. Council's Natural Environment Unit - Biodiversity referral team have reviewed the application for consistency against the relevant environmental legislation and controls, including:

#### **Biodiversity Conservation Act 2016 (BC Act) Pittwater Local Environmental Plan (PLEP)**

- 7.6 Biodiversity Protection

#### **Pittwater Development Control Plan (PDCP)**

- B4.6 Wildlife Corridors

No Arboricultural Impact Assessment has been submitted with the application, however it is noted that Council's Landscape Referral Team have deemed the impacts to nearby trees to be acceptable due to the use of pier footing. Conditions relating to Tree Protection Measures as recommended by the Landscape Team are noted and supported by Biodiversity.

The site is surrounded by an existing timber fence, and is unlikely to be relied upon for native, ground-dwelling fauna. Therefore no objection is raised to the proposed fence with regard to B4.6 Wildlife Corridors. Subject to the retention of all prescribed trees, no objections are raised by Council's Natural Environment Unit - Biodiversity.

The proposal is therefore supported.

Note: Should you have any concerns with the referral comments above, please discuss these with the Responsible Officer.

**Recommended Natural Environment Conditions:**

**CONDITIONS TO BE SATISFIED PRIOR TO THE ISSUE OF THE CONSTRUCTION CERTIFICATE**

**No Clearing of Vegetation**

Unless otherwise exempt, no vegetation is to be cleared prior to issue of a Construction Certificate.

Details demonstrating compliance are to be submitted to the Certifying Authority prior to issue of Construction Certificate.

Reason: To protect native vegetation.

**CONDITIONS WHICH MUST BE COMPLIED WITH PRIOR TO THE ISSUE OF THE OCCUPATION CERTIFICATE**

**New Vegetation Planting**

Any new landscaping is to incorporate a minimum 60% locally native vegetation species as a proportion of the total number of plants. Locally native species are to be consistent with the relevant section of the Native Gardening Booklet available on Council's website.

Details demonstrating compliance are to be provided to the Principal Certifying Authority prior to issue of the Occupation Certificate.

Reason: To ensure compliance with the requirement to retain and protect native planting on the site.

**No Weeds Imported On To The Site**

No Priority or environmental weeds (as specified in the Northern Beaches Local Weed Management Plan 2019 – 2023) are to be imported on to the site prior to or during construction works.

Details demonstrating compliance are to be submitted to the Principal Certifying Authority prior to issue of any Occupation Certificate.

Reason: To reduce the risk of site works contributing to spread of Priority and environmental weeds.

**ON-GOING CONDITIONS THAT MUST BE COMPLIED WITH AT ALL TIMES**

**Protection of Habitat Features**

All natural landscape features, including any rock outcrops, native vegetation, soil and/or watercourses, are to remain undisturbed except where affected by necessary works detailed on approved plans.

Reason: To protect wildlife habitat.
