RE: DA2019/0200 - 130 Old Pittwater Road BROOKVALE NSW 2100

The constant noise that has been going on already for the past year i cannot stand. It is actually making the house shake from all the drilling. We have a large number of animal species in land behind the house which a section of this is for your development. The residents of 18 allenby park pde do not want this going on. We have had to put up with the constant noise throughout the day and to see another development trying to go ahead. We are fed up.
