RE: DA2021/0212 - 5 Skyline Place FRENCHS FOREST NSW 2086

I have worked in Seniors Living on the Northern Beaches for nearly 20 years and have experienced many different types of living arrangements for our seniors. Jardin is offering what our Seniors have craved for that other styles of living for downsizers have neglected. Large living areas, light, community gathering areas; inside and out, sustainability, caring options and most of all financial stability in ownership. I commend the Developers on their insights and understanding of this age group coming from the Northern beaches and surrounds. We need this neighbourhood that is being developed for the aging demographic of this area.
