**RE: DA2020/1097 - 0 Campbell Parade MANLY VALE NSW 2093**

We are strongly against the proposed lighting and therefore extended hours of noise & traffic disruption on Campbell Pde.

It is bad enough with the noise from people yelling & swearing during sporting events as it is, at least we can have peace and quite when they are finished in the afternoon, but to consider having this extended to 9:30pm every night is completely unacceptable.

A space that is enjoyed by local residents to use with their families when sporting events are on is scarce enough.

Residents are already affected by the no parking restrictions due to school zones during certain hours which affects a multitude of people from workers who do not get home until after 5:00pm (with no where to park due to future increased activity) and do not leave in the morning generally until after 7:00am to others who arrive HOME around 3:30pm during the restrictions, requiring both to park blocks away or having to go out and move their vehicles late at night as not to infringe on the restrictions.

This proposal has been rejected several times before due to residents' living standards being affected.

I understand the need for community grounds to facilitate all, but with the grounds already available specifically appointed for the proposals' bases I feel it is unreasonable to subject a large local, long term residential community to suffer.
