This application seeks consent for any application on land or land being adjoining or adjacent to any parks, reserves, beaches, or foreshore

And as such, Council's Parks, Reserves and Foreshores officers are required to consider the likely impacts of the proposal.

Officer comments

The development site adjoins Narrabeen Beach that is located downslope of the property.

All development works must ensure that surface sediment runoff and/or erosion is controlled, managed and contained within the site boundaries and prevented from travelling across the boundary and into the beach foreshore dunes.

No physical encroachments over the site boundaries are permitted, and structures and built elements are not permitted beyond the site boundaries. The development is not detrimental to the prevailing landscape character when viewed from the adjoining beach, and as such Parks, Reserves and Foreshores raise no concerns with the development proposal.

The proposal is therefore supported.

Note: Should you have any concerns with the referral comments above, please discuss these with the Responsible Officer.
