Fabiana Radcliffe	Australia	2018-09-24	"Not the right place for it with a preschool nearby and two primary schools and in an area where there are lots of young families and also bordering the State significant environmentally protected Narrabeen Lagoon. Unbelievable! These Towers also affect wildlife and insects as well and pretty much make everything around them a death zone causing cancer, illness, learning difficulties low sperm count and numerous other ailments in humans. Children and the elderly are particularly susceptible. Also visually disturbing making the value of our property decrease about 20%, not acceptable."
Jude Kelly	Australia	2018-09-25	"It's disgusting that anyone can do this to families. They are cancer causing and will reduce home values. There's so much spare land to place these instead of someone's valuable property. Think about the kids especially. Evidence is out there."

Cut and paste the link above and go to Documents page to lodge a submission. thanks"
Amy Tickle	Collaroy Plateau, Australia	2018-09-29	"Wheeler Heights is a beautiful and leafy area with a retirement village (filled with ex war vets), a huge public school, a catholic school, daycare centres, families, etc. A tower of this nature would be criminal. Wheeler Heights also backs onto one of the most picturesque and stunning natural beauties on the beaches (Narrabeen Lake). The lake is now a tourist destination and a place enjoyed by many of the citizens of the beaches. The council made the wonderful decision to spend the money on improving access to the beautiful area. Why would they approve a submission for Telstra to ruin it with an eye sore? Please don't do this!"
Rachel Cernecca	Australia	2018-09-29	"If this goes ahead the consequences for us and our neighbours and the local children living close to the proposed tower could be devastating, not to mention the local wildlife. It is criminal to put it in an area so close to residential houses, preschools and schools."
Carol chong	Australia	2018-09-30	"I don't want to get cancer and I work in the RSL."
Colleen Camelin	brookvale, Australia	2018-09-30	"There is already a tower on the Plateau, there is no need for another one and so close to 2 x Primary Schools is unacceptable."

Sharon Rasco	Australia	2019-06-23	"I am very concerned about the effects of 4G and 5G EMR emissions, especially on children and the elderly, and ARPANSA issues."
Sue Cutbill	Forestville, Australia	2019-07-08	"It is irresponsible to be building this especially considering our levels determined by ARPANSA are far less strict than other countries. What about the health of the staff, residents and local community."

Rebecca Stevens	Australia	2019-07-08	"There seems to be no serious regard for potential health problems. Why is Australia's public exposure levels, set in 2002 up to 100x higher than other countries? And considerably higher than was advised by a Senate committee in 2001? And also does not appear to acknowledge the accumulative impact of exposure levels today. ARPANSA even admits they cannot confirm safety and for individuals to seek medical advice. There are many people with or recovering from cancers for whom this will be highly concerning and stress/anxiety producing. Not to mention the potential risk too children & pregnant women who studies indicate are especially vulnerable and wildlife of which there are peer-reviewed studies indictating significant impact."

Nelson Smith	Australia	2019-07-24	"5g is harmful to all of us. And no one in Government gives a fuck"
Marit hannemann	Australia	2019-07-24	"I am opposing this development due to safety concerns for my families health"
Deborah Van der Sluys	Australia	2019-07-24	"I'm concerned about my health and all the residents in the area."
Geila Lucia Gerhard RECH	Florianópolis, Brazil	2019-07-24	"Vamos lutar."
Amanda Brown	Australia	2019-07-24	"More peer reviewed studies are required. Countries where this has been rolled out are showing detrimental health effects on humans and other living organisms. This is unnecessary technology that I do not personally want, and taking a prudent avoidance stance is the most responsible approach a person/company/authority at this point in time, with the current global findings on EMF"
