RE: DA2018/1667 - 181 Allambie Road ALLAMBIE HEIGHTS NSW 2100

I would like to express my concerns about this Development application. I live nearby the proposed site and regularly walk the bush tracks behind the retirement village. This development threatens the bushland in Manly war memorial park as there is proposed bushland clearing. construction will affect nearby curl curl creek as well as the plants and animals in the area some of which are threatened or endangered. Manly War memorial park is a slice of pristine bushland that I have enjoyed time walking through and picnicking in for manly years that is already being diminished by works at Manly Vale public school, the roadworks for Northern Beaches Hospital and the proposed roadworks for the new Beacheslink tunnel. any development of the area for further seniors living I feel should seek to have little if any impact on the adjoining important bushland.
