**RE: REV2021/0014 - 323 - 325 Condamine Street MANLY VALE NSW 2093**

I As per previous submission ref DA2020/0824, I re submit the same complaints. I re-confirm our concern in regards to the traffic in the lane which is adjacent to my property which we lived here for almost 50 years, to achieve the 6 metres width, the existing Curb/Gutter has to be removed, it is a big concern to us as explained in my previous submission which a lay back Gutter is more preferred to stop excess rain water running and flooding my property. A face to face discussion would be highly appreciated.
