Subject: TRIMMED: DA2024/1216 - Submission of Support

To Whom it May Concern

With respect to the DA referenced I would like to lodge my support of the proposal.

The proposal to de-clutter the waterways in North Harbour is a positive step by the applicant. The effective movement from swing moorings to marina berths provides a safe navigation channel that not only provides a safe passage for vessels by the public alike (i.e. kayaks and SUP). This should be viewed as a positive by the Council in assessing the application.

With respect to the proposed Kiosk, again I am supportive. Providing this sort of amenity will not just benefit the marina guests but also the wider public and local community. The kiosk at the Manly Boatshed has been welcomed by residents providing much needed amenity along the harbour foreshore where numerous residents exercise / walk. Such an addition on the adjacent foreshore would be a welcome addition and only enhance the area especially given the popularity of the Spit to Manly walk.

Regards,
Nick
