With regards to planning for the recreation facilities

Sports courts:

The Warringah Recreation Centre currently has six tennis courts, futsal courts and three squash courts. The proposed plan could significantly benefit the Northern Beaches Community by considering the addition of PickleBall courts.

PickleBall is the fastest growing sport in Australia and attracts a wide age group. There are currently over 1,600 active members registered with the Northern Beaches PickleBall Association. The number of members more doubled over the past six months and is predicted to grow exponentially. There are currently no dedicated pickleball courts on the Northern Beaches. The courts that are available are shared / multi use courts, I.e Curl Curl Youth and Community Centre hosts pickleball, basketball, badminton and futsal.

In light of the growing popularity of PickleBall could Council please consider adding a minimum of three (3) PickleBall courts, either dedicated or shared, to the Warringah Recreational Centre.

Kind regards, Lee Miles
