Dear Sir

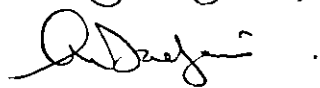

Re Proposed rezoning (Ref R0001/5) 4-8 Forest Road Warnewood 2102  
I wish to strongly object to any further development in this area.

Traffic in the whole northern beaches is already overloaded and the houses already under construction have not yet fully impacted on traffic movement. It is beginning to feel like a chicken coop.

Rezoning and rezoning does not make any sense. The developers seem to be able to do whatever they like (eg attempt to swallow up remaining parks in Newport.) It would be considerate to introduce more parks instead. Public opinion is requested but quickly overlooked depending on the needs of the developers. It was only with massive public objections that the parks in Newport were left alone. Infrastructure intended for the past is stretched beyond limits in such circumstances - traffic, sewers, electricity. If everyone in the neighbourhood of 4-8 Forest Road objected what would the result be?

I object to the proposal - no question.

Yours faithfully.

M. JAAGARI
