who have to abide with current size restrictions. This application should be rejected untill the council rezones the whole area; to be fair to everybody. Council should not rezone just one property, while
I am lodging an objection to the development application for 3 A Man st Mona Vale on the grounds that it does not meet block size requirements. The block is too small to be subdivided. The owner would have know this when the property was bought and then two large (sepp 5) houses where built. To allow this property to be subdived would be unfair to others who have to abide with current size restrictions. This application should be rejected untill the council rezones the whole area; to be fair to everybody. Council should not rezone just one property, while others are restricted; not allowed to subdivide their properties. B. A. Kronja
3 A DIGAL St Mona Vale on the grounds that it does not meet black size requirements. The block is too small to be subdivided. The owner would have know this when the property was bought and then two large (seeps) houses where built. 10 allow this property to be subdived would be unfair to others who have to abide with current size restrictions. This application should be rejected untill the council rezones the whole area; to be fair to everybody. Council should not rezone just one property, while others are restricted; not allowed to subdivide their properties.
