Submissions Received:	0	
Clause 4.6 Variation:	Nil	
Recommendation:	Approval	
Estimated Cost of Works:	\$ 340,000.00	

ASSESSMENT INTRODUCTION

The application has been assessed in accordance with the requirements of the Environmental Planning and Assessment Act 1979 and the associated Regulations. In this regard:

- An assessment report and recommendation has been prepared (the subject of this report) taking into account all relevant provisions of the Environmental Planning and Assessment Act 1979, and the associated regulations;
- A site inspection was conducted and consideration has been given to the impacts of the development upon the subject site and adjoining, surrounding and nearby properties;
- Notification to adjoining and surrounding properties, advertisement (where required) and referral
 to relevant internal and external bodies in accordance with the Act, Regulations and relevant
 Development Control Plan;

DA2019/0911 Page 1 of 19

- A review and consideration of all submissions made by the public and community interest groups in relation to the application;
- A review and consideration of all documentation provided with the application (up to the time of determination);
- A review and consideration of all referral comments provided by the relevant Council Officers, State Government Authorities/Agencies and Federal Government Authorities/Agencies on the proposal.

SUMMARY OF ASSESSMENT ISSUES

Manly Development Control Plan - 4.1.2 Height of Buildings (Incorporating Wall Height, Number of Storeys & Roof Height)

Manly Development Control Plan - 4.1.4 Setbacks (front, side and rear) and Building Separation Manly Development Control Plan - 4.1.5 Open Space and Landscaping

SITE DESCRIPTION

Property Description:	Lot 28 DP 758044 , 12 Dobroyd Road BALGOWLAH HEIGHTS NSW 2093
Detailed Site Description:	The subject site consists of one (1) allotment located on the northern side of Dobroyd Road, Balgowlah Heights.
	The site is irregular in shape with a frontage of 15.695m to Dobroyd Road and a maximum depth of 38.695m along the eastern side boundary. The site has a surveyed area of 581.1sqm.
	The site is located in the R2 Low Density Residential zone and accommodates a split-level single storey dwelling house with a carport in the front yard and a swimming pool in the rear yard.
	The site experiences a fall of approximately 4m that slopes towards the northern rear boundary.
	The site contains landscaped open spaces in the front and rear yards and a number of low lying plants and trees located throughout the site.
	Detailed Description of Adjoining/Surrounding Development
	Adjoining and surrounding development is largely characterised by one (1) and two (2) storey detached dwelling houses, with the exception of a number of small commercial premises' located approximately 143m west of the subject site.

Мар:

DA2019/0911 Page 2 of 19

SITE HISTORY

The site has been used for residential purposes for an extended period of time. A search of Council's records has revealed no recent applications relevant to this Development Application.

A site visit was undertaken on 12 September 2019.

PROPOSED DEVELOPMENT IN DETAIL

The applicant seeks development consent for alterations and additions to a dwelling house. Specifically, the application comprises alterations to the existing upper and lower ground floor and the construction of a first floor addition.

The works to the lower ground floor comprise the removal of internal walls to create a new rumpus room.

The works to the upper ground floor comprise the construction of an internal stair case to provide access to the proposed first floor and the construction of two (2) windows within the proposed stair well.

The proposed upper ground floor would include a master bedroom, a walk in wardrobe and an ensuite . Furthermore, the proposed upper ground floor would contain a balcony on the northern elevation, which would include two (2) 1.7m high obscure glass privacy screens on the eastern and western elevations. The proposed upper ground floor would contain five (5) new windows and two (2) doors to access the proposed balcony.

No trees would be removed or impacted by the proposed development.

ENVIRONMENTAL PLANNING AND ASSESSMENT ACT, 1979 (EPAA)

The relevant matters for consideration under the Environmental Planning and Assessment Act, 1979,

DA2019/0911 Page 3 of 19

are:

are:	
Section 4.15 Matters for Consideration'	Comments
Section 4.15 (1) (a)(i) – Provisions of any environmental planning instrument	See discussion on "Environmental Planning Instruments" in this report.
Section 4.15 (1) (a)(ii) – Provisions of any draft environmental planning instrument	None applicable.
Section 4.15 (1) (a)(iii) – Provisions of any development control plan	Manly Development Control Plan applies to this proposal.
Section 4.15 (1) (a)(iiia) – Provisions of any planning agreement	None applicable.
Section 4.15 (1) (a)(iv) – Provisions of the Environmental Planning and Assessment Regulation 2000 (EP&A Regulation 2000)	<u>Division 8A</u> of the EP&A Regulation 2000 requires the consent authority to consider "Prescribed conditions" of development consent. These matters have been addressed via a condition of consent.
	Clause 98 of the EP&A Regulation 2000 requires the consent authority to consider insurance requirements under the Home Building Act 1989. This matter has been addressed via a condition of consent.
	Clause 98 of the EP&A Regulation 2000 requires the consent authority to consider the provisions of the Building Code of Australia (BCA). This matter has been addressed via a condition of consent.
Section 4.15 (1) (b) – the likely impacts of the development, including environmental impacts on the natural and built environment and social and economic impacts in the locality	(i) Environmental Impact The environmental impacts of the proposed development on the natural and built environment are addressed under the Manly Development Control Plan section in this report.
	(ii) Social Impact The proposed development will not have a detrimental social impact in the locality considering the character of the proposal.
	(iii) Economic Impact The proposed development will not have a detrimental economic impact on the locality considering the nature of the existing and proposed land use.
Section 4.15 (1) (c) – the suitability of the site for the development	The site is considered suitable for the proposed development.
Section 4.15 (1) (d) – any submissions made in accordance with the EPA Act or EPA Regs	No submissions were received during the Notification Period.
Section 4.15 (1) (e) – the public interest	No matters have arisen in this assessment that would justify the refusal of the application in the public interest.

EXISTING USE RIGHTS

DA2019/0911 Page 4 of 19

Existing Use Rights are not applicable to this application.

BUSHFIRE PRONE LAND

The site is not classified as bush fire prone land.

NOTIFICATION & SUBMISSIONS RECEIVED

The subject development application has been publicly exhibited in accordance with the Environmental Planning and Assessment Act 1979, Environmental Planning and Assessment Regulation 2000 and the relevant Development Control Plan.

As a result of the public exhibition of the application Council received no submissions.

REFERRALS

Internal Referral Body	Comments
NECC (Development	Development Engineering has no objection to the application subject
Engineering)	to the following condition of consent.

External Referral Body	Comments
,	The proposal was referred to Ausgrid. No response has been received within the 21 day statutory period and therefore, it is assumed that no objections are raised and no conditions are recommended.

ENVIRONMENTAL PLANNING INSTRUMENTS (EPIs)*

All, Environmental Planning Instruments (SEPPs, REPs and LEPs), Development Controls Plans and Council Policies have been considered in the merit assessment of this application.

In this regard, whilst all provisions of each Environmental Planning Instruments (SEPPs, REPs and LEPs), Development Controls Plans and Council Policies have been considered in the assessment, many provisions contained within the document are not relevant or are enacting, definitions and operational provisions which the proposal is considered to be acceptable against.

As such, an assessment is provided against the controls relevant to the merit consideration of the application hereunder.

State Environmental Planning Policies (SEPPs) and State Regional Environmental Plans (SREPs)

SEPP 55 - Remediation of Land

Clause 7 (1) (a) of SEPP 55 requires the Consent Authority to consider whether land is contaminated. Council records indicate that the subject site has been used for residential purposes for a significant period of time with no prior land uses. In this regard it is considered that the site poses no risk of contamination and therefore, no further consideration is required under Clause 7 (1) (b) and (c) of SEPP 55 and the land is considered to be suitable for the residential land use.

DA2019/0911 Page 5 of 19

SEPP (Building Sustainability Index: BASIX) 2004

A BASIX Certificate has been submitted with the application (see Certificate No. A350446 dated 11 June 2019). A condition has been included in the recommendation of this report requiring compliance with the commitments indicated in the BASIX Certificate.

SEPP (Infrastructure) 2007

<u>Ausgrid</u>

Clause 45 of the SEPP requires the Consent Authority to consider any development application (or an application for modification of consent) for any development carried out:

- within or immediately adjacent to an easement for electricity purposes (whether or not the electricity infrastructure exists).
- immediately adjacent to an electricity substation.
- within 5.0m of an overhead power line.
- includes installation of a swimming pool any part of which is: within 30m of a structure supporting an overhead electricity transmission line and/or within 5.0m of an overhead electricity power line.

Comment:

The proposal was referred to Ausgrid. No response has been received within the 21 day statutory period and therefore, it is assumed that no objections are raised and no conditions are recommended.

Manly Local Environmental Plan 2013

Is the development permissible?	Yes	
After consideration of the merits of the proposal, is the development consistent with:		
aims of the LEP?		
zone objectives of the LEP?	Yes	

Principal Development Standards

Standard	Requirement	Proposed	% Variation	Complies
Height of Buildings:	8.5m	8.195m	-	Yes
Floor Space Ratio	FSR: 0.45:1	FSR: 0.445:1	-	Yes

Compliance Assessment

Clause	Compliance with Requirements

DA2019/0911 Page 6 of 19

Clause	Compliance with Requirements
4.3 Height of buildings	Yes
4.4 Floor space ratio	Yes
4.5 Calculation of floor space ratio and site area	Yes
6.4 Stormwater management	Yes
6.12 Essential services	Yes

Manly Development Control Plan

Built Form Controls

Built Form Controls - Site Area: 581.1sqm	Requirement	Proposed	% Variation*	Complies
4.1.1.1 Residential Density	Density: 1 dwellings	1	-	Yes
and Dwelling Size	Dwelling Size: 117sqm	258.8sqm	-	Yes
4.1.2.1 Wall Height	North: 6.6m (based on gradient 1:60)	7.45m	12.88%	No
	South: 6.7m (based on gradient 1:30)	7.24m	8.06%	No
	East: 7.1m (based on gradient 1:10)	7.24m	1.97%	No
	West: 7.1m (based on gradient 1:10)	7.29m	2.68%	No
4.1.2.2 Number of Storeys	2	2	ı	Yes
4.1.2.3 Roof Height	Height: 2.5m	0.96m	ı	Yes
	Pitch: maximum 35 degrees	10.81 degrees	-	Yes
4.1.4.1 Street Front Setbacks	6m	7.08m	-	Yes
4.1.4.2 Side Setbacks and Secondary Street Frontages	East: 2.41m (1/3 of proposed wall height)	2.18m	9.54%	No
	West: 2.41m (1/3 of proposed wall height)	3.19m	-	Yes
	Windows: 3m	East: One (1) window located 2.09m from the side boundary West: Two (2) windows setback 3.19m from the side boundary	30.33%	No
4.1.4.4 Rear Setbacks	8m	15.20m	-	Yes
4.1.5.1 Minimum Residential Total Open Space Requirements Residential Open Space Area: OS3	Open space 55% of site area	No change	N/A	N/A
	Maximum permitted Open space above ground 25% % of total open space	10.74%	-	Yes

DA2019/0911 Page 7 of 19

4.1.5.2 Landscaped Area	Landscaped area 35% of open space	No change	N/A	N/A
	3 native trees	Two (2) trees	33.33%	No
4.1.5.3 Private Open Space	18sqm per dwelling	>18sqm	-	Yes
4.1.6.1 Parking Design and the Location of Garages, Carports or Hardstand Areas	Maximum 50% of frontage up to maximum 6.2m	No changes to parking facilities	N/A	N/A
Schedule 3 Parking and Access	Dwelling 2 spaces	No changes to parking facilities	N/A	N/A

^{*}Note: The percentage variation is calculated on the *overall* numerical variation (ie: for LOS - Divide the proposed area by the numerical requirement then multiply the proposed area by 100 to equal X, then 100 minus X will equal the percentage variation. Example: $38/40 \times 100 = 95$ then 100 - 95 = 5% variation)

Compliance Assessment

Clause		Consistency Aims/Objectives
3.1 Streetscapes and Townscapes	Yes	Yes
3.1.1 Streetscape (Residential areas)	Yes	Yes

4.1.7 First Floor and Roof Additions	Yes	Yes
4.4.2 Alterations and Additions	Yes	Yes
Schedule 1 – Maps accompanying the DCP	Yes	Yes

Detailed Assessment

4.1.2 Height of Buildings (Incorporating Wall Height, Number of Storeys & Roof Height)

Description of non-compliance

Clause 4.1.2.1 of the Manly Development Control Plan 2013 (MDCP 2013) stipulates that the maximum wall height permitted on each elevation is as follows:

- Northern elevation 6.6m (based off gradient of 1:60);
- Southern elevation 6.7m (based off gradient of 1:30);
- Eastern elevation 7.1m (based off gradient of 1:10); and
- Western elevation 7.1m (based off gradient of 1:10).

The application proposes the following walls heights:

- Northern elevation 7.45m;
- Southern elevation 7.24m;
- Eastern elevation 7.1m; and
- Western elevation 7.1m.

As a consequence, the proposed development fails to comply with the requirements of this Control.

Merit Assessment

With regard to the consideration for a variation, the proposed development is considered against the underlying objectives of the Control. This control relies upon the objectives specified within Clause 4.3 of the *Manly Local Environmental Plan 2013* (MLEP 2013). Accordingly, the proposal is considered against the following objectives:

(1) (a) To provide for building heights and roof forms that are consistent with the topographic landscape, prevailing height and desired future streetscape character of the locality.

Comment:

The proposed development is compliant with the 8.5m maximum building height development standard and provides a roof form that is consistent with the surrounding development. Furthermore, the proposal is consistent with the desired character statement specified within Clause 3.1.1 of the MDCP 2013.

DA2019/0911 Page 9 of 19

(1) (b) To control the bulk and scale of buildings.

Comment:

The proposed development is compliant by virtue of the 8.5m maximum building height development standard and the Floor Space Ratio development standard. Furthermore, the proposed first floor addition is contained within the existing building footprint. As such, it is considered that the bulk and scale of the development is suitable for the locality.

- 1(c) To minimise disruption to the following:
- (i) views to nearby residential development from public spaces (including the harbour and foreshores),
- (ii) views from nearby residential development to public spaces (including the harbour and foreshores).
- (iii) views between public spaces (including harbour and foreshores).

Comment:

Due to the height and bulk of the proposed development, it is not anticipated that the proposal will give rise to any unreasonable or detrimental view loss from surrounding properties. Therefore, it is considered that views to and from public spaces will not be significantly compromised as a result of the proposed development.

(1) (d) To provide solar access to public and private open space and maintain adequate sunlight access to private open spaces and to habitable rooms of adjoining dwellings.

Comment:

The subject site and adjacent properties are orientated towards a northern aspect. As such, private open spaces and habitable rooms within the subject site and adjacent properties will maintain sufficient access to sunlight. The properties located on the southern side of Dobroyd Road are sited well above the subject site. As a result, the provisions for solar access will be maintained within these properties.

(1) (e) To ensure the height and bulk of any proposed building or structure in a recreation or environmental protection zone has regard to existing vegetation and topography any any other aspect that might conflict with bushland and surrounding land uses.

Comment:

The subject site is not located within a recreation or environmental protection zone. Furthermore, the proposed development will not result in the removal of any vegetation or trees. Therefore, the proposed development will not be detrimental to existing flora or fauna on both the subject site and surrounding properties.

(2) The height of a building on any land is not to exceed the maximum height shown for the land on the Height of Buildings Map.

Comment:

The proposal is compliant by virtue of the 8.5m maximum building height development standard.

4.1.4 Setbacks (front, side and rear) and Building Separation

Clause 4.1.4.1 of the MDCP 2013 requires buildings to be setback:

DA2019/0911 Page 10 of 19

- one third of the proposed wall height (2.41m) from side boundaries; and
- windows to be setback at least 3m from side boundaries.

The proposed first floor addition would be setback 2.18m from the eastern side boundary, which fails to comply with this Control. It is noted that the existing dwelling house is currently setback 1.44m from the eastern side boundary.

The proposed development would contain one (1) window on the eastern elevation located 2.09m from the eastern side boundary, which fails to comply with this Control.

Merit Assessment

With regard to the consideration for a variation, the proposed development is considered against the underlying objectives of the Control as follows:

Objective 1) To maintain and enhance the existing streetscape including the desired spatial proportions of the street, the street edge and the landscaped character of the street.

Comment:

The proposed first floor addition is contained within the existing building footprint and will not result in the removal of any landscaped features on the site. The existing landscaped features throughout the site, in conjunction with the recommended tree planting, will soften the built form. Therefore, it is considered that the provisions for landscaped features within the site will reduce the development's overall impact on the streetscape.

Objective 2) To ensure and enhance local amenity by:

- providing privacy;
- providing equitable access to light, sunshine and air movement;
- facilitating view sharing and maintaining adequate space between buildings to limit impacts on views and vistas from private and public spaces;
- defining and adding character to the streetscape including the provision of adequate space between buildings to create a rhythm or pattern of spaces; and
- facilitating safe and adequate traffic conditions including levels of visibility around corner lots at street intersection.

Comment:

The proposed window located within the 3m setback area on the eastern elevation would be located within a stair well. As such, it is considered that the proposed window is unlikely to give rise to any privacy impacts. Equitable access to light, sunshine and air movement will be maintained as a result of the proposed development. The proposed first floor addition is contained within the existing footprint and maintains a greater setback than that of the existing dwelling. Therefore, the proposal will not alter the existing spatial pattern of development within the locality. The proposed development will not impact road visibility or traffic conditions within the locality.

Objective 3) To promote flexibility in the siting of buildings.

Comment:

DA2019/0911 Page 11 of 19

The proposed first floor addition is sited in the most logical location, that being within the footprint of the existing dwelling.

Objective 4) To enhance and maintain natural features by:

- accommodating planting, including deep soil zones, vegetation consolidated across sites, native vegetation and natural trees:
- ensuring the nature of development does not unduly detract from the context of the site and particularly in relation to the nature of adjoining Open Space lands and National Parks;
- ensuring the provisions of State Environmental Planning Policy No 19 Urban Bushland are satisfied.

Comment:

The proposal will not result in the removal of trees, nor will it alter the existing provisions of landscaped open space within the site.

Objective 5) To assist in appropriate bush fire asset protection zones.

Comment:

The site is not located within a bush fire prone area.

4.1.5 Open Space and Landscaping

Clause 4.1.5.2 of the MDCP 2013 stipulates that properties with a lot size between 500 - 800sqm are to contain at least three (3) native trees listed within Schedule 4 Part B of the MDCP 2013. The site currently contains two (2) native trees, which fails to comply with this Control. Accordingly, a suitable condition has been recommended with this consent requiring at least one (1) native tree (selected from Schedule 4 Part B of the MDCP 2013) to be planted within the front yard. Subject to compliance with the recommended condition of consent, the proposal would comply with the requirements of this Control.

THREATENED SPECIES, POPULATIONS OR ECOLOGICAL COMMUNITIES

The proposal will not significantly effect threatened species, populations or ecological communities, or their habitats.

CRIME PREVENTION THROUGH ENVIRONMENTAL DESIGN

The proposal is consistent with the principles of Crime Prevention Through Environmental Design.

POLICY CONTROLS

Northern Beaches Section 7.12 Contributions Plan 2019

The proposal is subject to the application of Northern Beaches Section 7.12 Contributions Plan 2019.

A monetary contribution of \$3,400 is required for the provision of new and augmented public infrastructure. The contribution is calculated as 1% of the total development cost of \$340,000.

CONCLUSION

DA2019/0911 Page 12 of 19

The site has been inspected and the application assessed having regard to all documentation submitted by the applicant and the provisions of:

- Environmental Planning and Assessment Act 1979;
- Environmental Planning and Assessment Regulation 2000;
- All relevant and draft Environmental Planning Instruments;
- Manly Local Environment Plan;
- Manly Development Control Plan; and
- Codes and Policies of Council.

This assessment has taken into consideration the submitted plans, Statement of Environmental Effects, all other documentation supporting the application and public submissions, and does not result in any unreasonable impacts on surrounding, adjoining, adjacent and nearby properties subject to the conditions contained within the recommendation.

In consideration of the proposal and the merit consideration of the development, the proposal is considered to be:

- Consistent with the objectives of the DCP
- Consistent with the zone objectives of the LEP
- Consistent with the aims of the LEP
- Inconsistent with the objectives of the relevant EPIs
- Consistent with the objects of the Environmental Planning and Assessment Act 1979

It is considered that the proposed development satisfies the appropriate controls and that all processes and assessments have been satisfactorily addressed.

RECOMMENDATION

THAT Council as the consent authority grant Development Consent to DA2019/0911 for Alterations and additions to a dwelling house on land at Lot 28 DP 758044, 12 Dobroyd Road, BALGOWLAH HEIGHTS, subject to the conditions printed below:

DEVELOPMENT CONSENT OPERATIONAL CONDITIONS

1. Approved Plans and Supporting Documentation

The development must be carried out in compliance (except as amended by any other condition of consent) with the following:

a) Approved Plans

Architectural Plans - Endorsed with Council's stamp			
Drawing No.	Dated	Prepared By	
01A - SITE PLAN	23 July 2019	MRW Design	
02A - LOWER GROUND	23 July 2019	MRW Design	
03A - GROUND FLOOR	26 July 2019	MRW Design	

DA2019/0911 Page 13 of 19

16A - STORMWATER	22 August 2019	MRW Design

Reports / Documentation – All recommendations and requirements contained within:			
Report No. / Page No. / Section No.	Dated	Prepared By	
BASIX Certificate No. A350446	11 June 2019	MRW Design	

- b) Any plans and / or documentation submitted to satisfy the Conditions of this consent.
- c) The development is to be undertaken generally in accordance with the following:

Waste Management Plan			
Drawing No/Title.	Dated	Prepared By	
Waste Management Plan	22 August 2019	Karen Reynolds	

In the event of any inconsistency between conditions of this consent and the drawings/documents referred to above, the conditions of this consent will prevail.

Reason: To ensure the work is carried out in accordance with the determination of Council and approved plans.

2. Prescribed Conditions

- (a) All building works must be carried out in accordance with the requirements of the Building Code of Australia (BCA).
- (b) BASIX affected development must comply with the schedule of BASIX commitments specified within the submitted BASIX Certificate (demonstrated compliance upon plans/specifications is required prior to the issue of the Construction Certificate);
- (c) A sign must be erected in a prominent position on any site on which building work, subdivision work or demolition work is being carried out:
 - (i) showing the name, address and telephone number of the Principal Certifying Authority for the work, and
 - (ii) showing the name of the principal contractor (if any) for any building work and a telephone number on which that person may be contacted outside working hours, and
 - (iii) stating that unauthorised entry to the work site is prohibited.
 - Any such sign is to be maintained while the building work, subdivision work or demolition work is being carried out, but must be removed when the work has been completed.
- (d) Residential building work within the meaning of the Home Building Act 1989 must not be carried out unless the Principal Certifying Authority for the development to which the work relates (not being the Council) has given the Council written notice of the following information:
 - (i) in the case of work for which a principal contractor is required to be appointed:

DA2019/0911 Page 14 of 19

- A. the name and licence number of the principal contractor, and
- B. the name of the insurer by which the work is insured under Part 6 of that Act,
- (ii) in the case of work to be done by an owner-builder:
 - A. the name of the owner-builder, and
 - B. if the owner-builder is required to hold an owner-builder permit under that Act, the number of the owner-builder permit.

If arrangements for doing the residential building work are changed while the work is in progress so that the information notified under becomes out of date, further work must not be carried out unless the Principal Certifying Authority for the development to which the work relates (not being the Council) has given the Council written notice of the updated information.

- (e) Development that involves an excavation that extends below the level of the base of the footings of a building on adjoining land, the person having the benefit of the development consent must, at the person's own expense:
 - (i) protect and support the adjoining premises from possible damage from the excavation, and
 - (ii) where necessary, underpin the adjoining premises to prevent any such damage.
 - (iii) must, at least 7 days before excavating below the level of the base of the footings of a building on an adjoining allotment of land, give notice of intention to do so to the owner of the adjoining allotment of land and furnish particulars of the excavation to the owner of the building being erected or demolished.
 - (iv) the owner of the adjoining allotment of land is not liable for any part of the cost of work carried out for the purposes of this clause, whether carried out on the allotment of land being excavated or on the adjoining allotment of land.

In this clause, allotment of land includes a public road and any other public place.

Reason: Legislative Requirement

3. General Requirements

(a) Unless authorised by Council:

Building construction and delivery of material hours are restricted to:

- 7.00 am to 5.00 pm inclusive Monday to Friday,
- 8.00 am to 1.00 pm inclusive on Saturday,
- No work on Sundays and Public Holidays.

Demolition and excavation works are restricted to:

• 8.00 am to 5.00 pm Monday to Friday only.

(Excavation work includes the use of any excavation machinery and the use of jackhammers, rock breakers, excavators, loaders and the like, regardless of whether the activities disturb or alter the natural state of the existing ground stratum or are breaking up/removing materials from the site).

(b) At all times after the submission the Notice of Commencement to Council, a copy of the

DA2019/0911 Page 15 of 19

Development Consent and Construction Certificate is to remain onsite at all times until the issue of a final Occupation Certificate. The consent shall be available for perusal of any Authorised Officer.

- (c) Where demolition works have been completed and new construction works have not commenced within 4 weeks of the completion of the demolition works that area affected by the demolition works shall be fully stabilised and the site must be maintained in a safe and clean state until such time as new construction works commence.
- (d) Onsite toilet facilities (being either connected to the sewer or an accredited sewer management facility) for workers are to be provided for construction sites at a rate of 1 per 20 persons.
- (e) Prior to the release of the Construction Certificate, payment of the Long Service Levy is required. This payment can be made at Council or to the Long Services Payments Corporation. Payment is not required where the value of the works is less than \$25,000. The Long Service Levy is calculated on 0.35% of the building and construction work. The levy rate and level in which it applies is subject to legislative change. The applicable fee at the time of payment of the Long Service Levy will apply.
- (f) The applicant shall bear the cost of all works associated with the development that occurs on Council's property.
- (g) No building, demolition, excavation or material of any nature and no hoist, plant and machinery (crane, concrete pump or lift) shall be placed on Council's footpaths, roadways, parks or grass verges without Council Approval.
- (h) Demolition materials and builders' wastes are to be removed to approved waste/recycling centres.
- (i) No trees or native shrubs or understorey vegetation on public property (footpaths, roads, reserves, etc.) or on the land to be developed shall be removed or damaged during construction unless specifically approved in this consent including for the erection of any fences, hoardings or other temporary works.
- (j) Prior to the commencement of any development onsite for:
 - i) Building/s that are to be erected
 - ii) Building/s that are situated in the immediate vicinity of a public place and is dangerous to persons or property on or in the public place
 - iii) Building/s that are to be demolished
 - iv) For any work/s that is to be carried out
 - v) For any work/s that is to be demolished

The person responsible for the development site is to erect or install on or around the development area such temporary structures or appliances (wholly within the development site) as are necessary to protect persons or property and to prevent unauthorised access to the site in order for the land or premises to be maintained in a safe or healthy condition. Upon completion of the development, such temporary structures or appliances are to be removed within 7 days.

- (k) Requirements for new swimming pools/spas or existing swimming pools/spas affected by building works.
 - (1) Child resistant fencing is to be provided to any swimming pool or lockable cover to any spa containing water and is to be consistent with the following:

Relevant legislative requirements and relevant Australian Standards (including but not limited) to:

(i) Swimming Pools Act 1992

DA2019/0911 Page 16 of 19

- (ii) Swimming Pools Amendment Act 2009
- (iii) Swimming Pools Regulation 2008
- (iv) Australian Standard AS1926 Swimming Pool Safety
- (v) Australian Standard AS1926.1 Part 1: Safety barriers for swimming pools
- (vi) Australian Standard AS1926.2 Part 2: Location of safety barriers for swimming pools.
- (2) A 'KEEP WATCH' pool safety and aquatic based emergency sign, issued by Royal Life Saving is to be displayed in a prominent position within the pool/spa area.
- (3) Filter backwash waters shall be conveyed to the Sydney Water sewerage system in sewered areas or managed on-site in unsewered areas in a manner that does not cause pollution, erosion or run off, is separate from the irrigation area for any wastewater system and is separate from any onsite stormwater management system.
- (4) Swimming pools and spas must be registered with the Division of Local Government.

Reason: To ensure that works do not interfere with reasonable amenity expectations of residents and the community.

FEES / CHARGES / CONTRIBUTIONS

4. Policy Controls

Northern Beaches 7.12 Contributions Plan 2019

A monetary contribution of \$3,400.00 is payable to Northern Beaches Council for the provision of local infrastructure and services pursuant to section 7.12 of the Environmental Planning & Assessment Act 1979 and the Northern Beaches Section 7.12 Contributions Plan 2019. The monetary contribution is based on a development cost of \$340,000.00.

The monetary contribution is to be paid prior to the issue of the first Construction Certificate or Subdivision Certificate whichever occurs first, or prior to the issue of the Subdivision Certificate where no Construction Certificate is required. If the monetary contribution (total or in part) remains unpaid after the financial quarter that the development consent is issued, the amount unpaid (whether it be the full cash contribution or part thereof) will be adjusted on a quarterly basis in accordance with the applicable Consumer Price Index. If this situation applies, the cash contribution payable for this development will be the total unpaid monetary contribution as adjusted.

The proponent shall provide to the Certifying Authority written evidence (receipt/s) from Council that the total monetary contribution has been paid.

The Northern Beaches Section 7.12 Contributions Plan 2019 may be inspected at 725 Pittwater Rd, Dee Why and at Council's Customer Service Centres or alternatively, on Council's website at www.northernbeaches.nsw.gov.au

This fee must be paid prior to the issue of the Construction Certificate. Details demonstrating compliance are to be submitted to the Principal Certifying Authority.

Reason: To provide for contributions in accordance with the Contribution Plan to fund the

DA2019/0911 Page 17 of 19

provision of new or augmented local infrastructure and services.

5. Security Bond

A bond (determined from cost of works) of \$1,500 and an inspection fee in accordance with Council's Fees and Charges paid as security to ensure the rectification of any damage that may occur to the Council infrastructure contained within the road reserve adjoining the site as a result of construction or the transportation of materials and equipment to and from the development site.

An inspection fee in accordance with Council adopted fees and charges (at the time of payment) is payable for each kerb inspection as determined by Council (minimum (1) one inspection).

All bonds and fees shall be deposited with Council prior to Construction Certificate or demolition work commencing, details demonstrating payment are to be submitted to the Certifying Authority prior to the issue of the Construction Certificate.

To process the inspection fee and bond payment a Bond Lodgement Form must be completed with the payments (a copy of the form is attached to this consent and alternatively a copy is located on Council's website at www.northernbeaches.nsw.gov.au).

Reason: To ensure adequate protection of Council's infrastructure.

CONDITIONS TO BE SATISFIED PRIOR TO THE ISSUE OF THE CONSTRUCTION CERTIFICATE

6. Stormwater Disposal

The applicant is to demonstrate how stormwater from the new development within this consent is disposed of to an existing approved system or in accordance with Northern Beaches Council's MANLY SPECIFICATION FOR ON-SITE STORMWATER MANAGEMENT 2003. Details by an appropriately qualified and practicing Civil Engineer demonstrating that the existing approved stormwater system can accommodate the additional flows, or compliance with the Council's specification are to be submitted to the Certifying Authority for approval prior to the issue of the Construction Certificate.

Reason: To ensure appropriate provision for disposal and stormwater management arising from development.

7. Compliance with Standards

The development is required to be carried out in accordance with all relevant Australian Standards.

Details demonstrating compliance with the relevant Australian Standard are to be submitted to the Certifying Authority prior to the issue of the Construction Certificate.

Reason: To ensure the development is constructed in accordance with appropriate standards.

CONDITIONS TO BE COMPLIED WITH DURING DEMOLITION AND BUILDING WORK

8. Road Reserve

The applicant shall ensure the public footways and roadways adjacent to the site are maintained in a safe condition at all times during the course of the work.

DA2019/0911 Page 18 of 19

Reason: Public Safety.

CONDITIONS WHICH MUST BE COMPLIED WITH PRIOR TO THE ISSUE OF THE OCCUPATION CERTIFICATE

9. **Stormwater Disposal**

The stormwater drainage works shall be certified as compliant with all relevant Australian Standards and Codes by a suitably qualified person. Details demonstrating compliance are to be submitted to the Principal Certifying Authority prior to the issue of any interim / final Occupation Certificate.

Reason: To ensure appropriate provision for the disposal of stormwater arising from the development.

10. Landscape Works

One (1) small to medium locally native canopy tree is to be planted between the proposed first floor addition and the front boundary. The tree is to be selected from Schedule 4 - Part B - Native Tree Selection of the Manly Development Control Plan 2013 and is to be installed at 75 Litre pot size, with a minimum soil area of 3 metres by 3 metres. The tree is to achieve a height of at least 8 metres at maturity.

Details demonstrating compliance are to be presented to the Certifying Authority prior to the issue of an Occupation Certificate.

Reason: To ensure that the landscaped treatments are installed to provide landscape amenity.

In signing this report, I declare that I do not have a Conflict of Interest.

Signed

Thomas Burns, Planner

The application is determined on 20/09/2019, under the delegated authority of:
