I am the owner of 150 Hudson Parade Clareville

I have been writing to the council now for 3 years about the maintenance of the collapsed sea wall at 148 Hudson Parade Clareville.

The council have done nothing but obfuscate and mislead. A wire fence put up to protect the public over 2 years ago is a joke. It is an eyesore and provides no protection. Sediment runs into Pittwater. So much for the councils so called concern for the environment.

Multiple complaints result in no action and no response. I note my email of 22 January 2021 remains unactioned.

When are you going to fix this up.

Rosemary Schonell
