Subject: Mobile Tower Long Reef

Hi,

I hope you are well. I live at 941A Pittwater Rd Collaroy and for over a decade now, I have had poor mobile reception with Vodafone. When making or receiving calls, it's a farcical dance of running around the house between floors and rooms so that people can hear me. Calls are typically stressful, given many people have difficulties hearing me. Maybe if you had poor reception where you live, you would have more empathy with regards to this problem and would not be opposing the proposed solution.

Kind regards,

Robert
