**RE: DA2019/1426 - 77 Collingwood Street MANLY NSW 2095**

This is a narrow footpath near a corner and pedestrian crossing all near a park on one side and the beach and pool on the other. Numerous pedestrians, many young children, others with params or surf boards use this footpath. It is also connected to the cycle way and used by cyclists. Any suggestion to clog the footpath with customers queing up at a service window is ludicrous. Use of the window to date has forced pedestrians onto the roadway and created dangerous situations for pedestrians, cyclists and motorists.

This application should be totally rejected permanently

Thank you
