**RE: DA2019/0200 - 130 Old Pittwater Road BROOKVALE NSW 2100**

I object to this application because of the amount of natural space it will remove. This space has many native animals living in it. With the removal of bushland due to the construction at Manly Vale Public School these animals are losing more and more area to live in. This bushland also acts as a noise barrier for the surrounding area to prevent noise from delivery trucks echoing and travelling in the area. Further I suspect this would also increase traffic in the area...specifically on a Smith Avenue. We have already seen a huge increase in traffic and not just cars. Everyday I see large trucks driving down this residential street which is illegal for these sizes of trucks. Please, do not allow this to go through.
