Dear Councillors,

I am extremely concerned that yet more of the Manly Dam park has a DA for further development. this park is being diminished quite quickly, it is a gem of bush within the lower Northern Beaches, an area that is the home of many plant and animal species and desperately needs to be maintained at its current area. Each time an exception is made is a reasons for some other person wishing to make a profit using our public land.

Please do not approve this application.
