**RE: DA2023/1224 62 Myoora Road TERREY HILLS NSW 2084**

I really think the expansion submission for Flower Power needs to be re considered, especially considering another driveway is planned across the road from a primary school zone which is 40 km/h at times of the day and full of children and other commuters. Myoora road is already a dangerous road due to ever increasing traffic loads which are only going to increase with the opening of the new hospital. Conditions such as this really need to be considered in a sensible manner.

Please reconsider the development application
