RE: DA2020/1097 - 0 Campbell Parade MANLY VALE NSW 2093

Night games and lighting carries the significant concern over the lack of substantial parking in the area. We constantly have people parking across our driveway when soccer is being played in the weekend, parking in our visitor parking area etc. I would strongly recommend that the increased traffic and parking needs be addressed due to the extended playing availability of the grounds if they are lit. We are now at risk of not only experiencing this in the weekends but all through the week as well. not to mention the constant noise of older players yelling at each other.
