RE: DA2019/1119 - 4 / 0 Bennett Street CURL CURL NSW 2096

I am fully in support of the proposed Market at Harbord Bowling Club. Markets are wonderful community initiatives. They bring people together in a wholesome way. It gives farmers and small businesses opportunities to sell their wares and talk to their client base. The Northern Beaches Community loves Markets and should not be denied a market that is carefully thought out, run efficiently and in consideration of the residents. Harbord Bowling Club backs onto park land and is a community site that is under used and needs to be activated. This is what the community has wanted for a long time. The Council recognises this from a survey they did of the Northern Beaches municipality. If approved, I can't wait to do my shopping there. Thank you, Shauna Anderson
