RE: DA2025/0162 - 98 Beacon Hill Road BEACON HILL NSW 2100

My reasons for making this submission

Small culdesac which is for access to the properties located in this culdesac

It will cause extra congestion which will affect service vehicles and emergency vehicles being able to access.

There is also a family day care centre which brings extra parking and vehicular access. The property will not be able to provide off-street parking.
