- Wildlife corridors;
- Vegetation query stipulating that a Flora and Fauna Assessment is required;

And as such, Council's Natural Environment Unit officers are required to consider the likely potential environmental impacts.

### Officer comments

The proposed incline lift development has been assessed against Manly LEP CI 6.5 Terrestrial Biodiversity and the Coastal SEPP CI 13 Environment Area.

The development will remove two exempt trees, with all other trees and native vegetation retained. Therefore it is considered that the development is designed, sited and will be managed to avoid any significant adverse environmental impact.

The proposal is therefore supported.

Note: Should you have any concerns with the referral comments above, please discuss these with the Responsible Officer.
