**Subject:** Comment on Proposed Development DA2022/1506

To whom it may concern,

I have reviewed the proposal's set of plans and have noticed that they do not reflect the proposed development Mod2022/0460 – DA2020/0014 for the same site.

This new proposal retains the existing larger pool, among other alterations, thus site coverage percentages will change. This may affect the assessment of DA2022/1506.
