Officer comments

A Torrens subdivision is not suitable for this lot, as the bio-retention basin at the proposed lot 4 is providing water management for the proposed lots 1-3. Therefore the proposed lots 1-3 will be responsible for maintenance and replacement of the basin on the proposed lot 4. Subdivision is possible under a community title arrangement only to ensure appropriate management of the basin.

The proposal is therefore unsupported.

Note: Should you have any concerns with the referral comments above, please discuss these with the Responsible Officer.
