**RE: DA2024/1303 - 11 / 0 Melwood Avenue FORESTVILLE NSW 2087**

I am devastated to see the green outdoor area being reduced to a minimal space. We visit the RSL more than any other dining facility in the area because of this space for kids to play while adults catch up.

Another concern I have is with doubling the gaming area. It is public knowledge that gambling addictions are continuing to rise, with some suicidal results. Why increase this temptation and create a future generation of young adults addicted to such easy access to gaming facilities?! Please reconsider and promote large event bookings using the current upstairs' space.
