RE: DA2021/1612 - 1 Clarke Street NARRABEEN NSW 2101

I grew up n Goodwin Street south Narrabeen for 30yrs. This has been an huge community issue for as longng as I can remember. How can this disgraceful wall be installed with very minimal if any public consultation to protect private property. The impact on the environment and the public just to protect the few Why could waves not be made to break further out to reduce energy of the swell instead a huge wall. This is disgusting.
