RE: DA2021/0004 - 1121 Pittwater Road COLLAROY NSW 2097

I think the proposed development has been well planned and the use is ideally suited to the location.

The availability of off street parking is a further benefit.

It will be good to see the use of this building being optimised and the business will also create employment opportunities for local residents.

I fully support the application and recommend council approve the plans as proposed.

Tony Hall
