RE: DA2023/0995 - 54 Brighton Street FRESHWATER NSW 2096

At least 12 houses were flooded in March 2022 as a result of storm water running across Brighton street (and of course Northern Beaches Council's failure to service drains to Curl Curl lagoon) into Manuela Place and Holloway Place, Curl Curl. Is council seriously considering a development application that further exacerbates this issue without firstly installing new pipes to Curl Curl Lagoon to accommodate the potential increase in water flow ?
