**RE: DA2020/1027 - 0 Stuart Street MANLY NSW 2095**

The developments at this site over the years have been an ongoing disaster. What started out to be a coffee shop became a "restaurant" with crowded dirty public access through the area. Ripples now want to make it all fresh and spend \$495,000 without a liquor license and maintaining the same operating hours. Who in the Council believes that is where it will end. Stage two will be extended hours and a liquor license. We don't want any more rowdy noise in our backyard!

Have the developers come clean and tell us the full story behind their plans!
