Subject: Application Number: DA2019/0404

To whom It May Concern;

I write to you on behalf of local business members of the Warringah Chamber of Commerce in relation to the abovementioned Development Application for Two kiosk structure and associated outdoor seating which forms part of the Meriton Precinct development.

On behalf of members and affiliate businesses, we are strongly opposed to the approval for additional business trading areas when we believe the current needs of local business in relation to promotion of pedestrian and local traffic including the activation of the precinct space to assist in local economic development. The addition of competing kiosk space would be counterproductive to this given the current grievances raised by tenants directly affected.

We understand that the DA is currently listed as being refused however, if this is reviewed or an additional DA is submitted for consideration of the same merit, we would appreciate being involved in the consultation process.

Kind Regards,

Samantha King JP
President
