Subject: Harbord Hotel Development Application

Categories: NBLPP

To whom it may concern,

I am a current resident at Unit 3, 35 Moore Road Freshwater and have resided here for the past 4 years.

I would like to express that I am in full support of the development application being put forward by the Harbord Hotel. They have built a wonderful team, environment and community supporting entertainment, music and artists which Sydney very much needs. Being in the entertainment industry myself we have really taken a hard hit in the last two years due to Covid Restrictions.

Since the upgrade, I have never noticed any noise, their security is very meticulous when entering and exiting the building. The soundproofing is excellent, you can't hear a thing even if I'm outside the building. If they have live music or DJ's playing they always make sure one door is closed with their double door system in place.

All the staff there are wonderful, they do a great job managing patrons when they leave making sure no one is loitering after the venue closes.

Increasing the parking will be very beneficial to the community. On weekends it's extremely hard to find a park so I would be very happy about having more parking spots available.

I would like to nominate Zaher Hamdan to speak on my behalf at the zoom meeting this coming Wednesday the 15th November.

Many thanks,
