Attention assessing officer,

Re: DA2020/1489

I would like put in a submission objecting to the demolition and subdivision of the house and land.

It is disingenuous of the applicant to demolish this house for the reasons provided. If it is not financially viable to restore then they can sell the land to someone with more money.

This is an iconic Sydney landmark given the history of the site and must be preserved in the interest of the public.
