Subject:

Dear ms Carly Sawyer,

I have previously sent in a submission regarding opposition to the proposed Retirement Villiage developement at 181 Allambie Rd Allambie Heights, on further thought about this development, I think it is up to the developer to make sure that their assets are at there further most distance from bushland and that the construction method and materials used are BAL rated and the clearing of bushland adjacent to this development for asset protection should not happen . Manly Memorial Park is there for future generations and is not there for developers to profit from it ,

I am no longer a Northern beaches local and reside in Western Australia, but still love the area and it's environment,

Kind regards Stephen.
