RE: Mod2022/0090 - 7356 / 1167221 Huston Parade NORTH CURL CURL NSW 2099

I wish to express my opposition to this modification. I also want to restate that this tower should never have been approved in the first place. I was opposed to the application from the start as were the majority of the community.

The Development Assessment's Report stated rehabilitation planting was to be undertaken to minimise the visual impact of the large structure located along the banks of the lagoon. To now request a modification to remove this rehabilitation planting is not acceptable. I oppose it absolutely.
