Subject: FW: DA 2020/1063 - Proposed Floodlights on Frank Gray & Mike Pawley Ovals

Attention: Phil Lane

Principal Planner

DA 2020/1063 - Proposed Floodlights on Frank Gray & Mike Pawley Ovals

Further to previous correspondence requesting that the abovementioned DA be withdrawn, there is further information that now supports this request, namely -

- Northern Beaches Council initially failed to notify the total area that would be detrimentally impacted by the installation of these Floodlights, and has only recently admitted fault,

and has quickly tried to notify residents on the southern side of Bennett St.,

- the **Council Traffic Engineer Report** appears to only address Construction issues, and traffic management when Construction is in operation, it does NOT address that lack of public car parking

nor the traffic, noise and safety issues that will definitely impact all the narrow streets in the adjacent neighbourhood.

- the Council prepared Natural Environmental Referral Response - Biodiversity - does **NOT** support this proposal.

- the **Community and Stakeholder Engagement Report** states that a total of 839 submissions were received, however, only 337 (online responses) + 7 (email) responses are presented in this report. Where are the other 495 responses?

Given the breakdown of percentages that reflect "support", "not support" and "neutral" the report has assumed that these 495 responses are in favour of the sporting lights.

If these figures are accurate, it is only fair that Council be transparent and display these 495 responses in the report.

If these submissions come by way of a petition, it should be only counted as a single submission

And lastly, for Northern Beaches Council to process a Development Application that obviously has so much detrimental impact on a local family neighbourhood, and continue to rush this proposal through

(incompetently), when we all are trying to get over this world wide Covid virus pandemic is totally unfair, inconsiderate and irresponsible.

We are all now hoping that this DA is immediately WITHDRAWN.

Best regards,

Frank Minnici
