RE: DA2019/0200 - 130 Old Pittwater Road BROOKVALE NSW 2100

Allenby Park is as unique parcel of bushland and, native rainforest that is the habitat for many species of native fauna including wallabies, echidnas and breeding pairs of the Powerful Owl which is listed on the New South Wales Threatened Species Conservation Act as Vulnerable. This development infringes on bushland and will impact directly on the wildlife corridor which connects Allenby Park and it's adjacent reserves with Manly Dam. I believe light industrial use that compromises this land is inappropriate.

Thank you for taking our objections and suggestions into account.

Yours sincerely
