RE: DA2021/2567 - 60 Federal Parade BROOKVALE NSW 2100

To whom it may concern,

I have just learned of the proposed increase of student intake at St Augustines from 1200 to 1600. The streets surrounding the school grounds are already at breaking point.

The ability to move in and out of The Kilns at school pick up and drop off times is difficult now. Also, students take up every available visitor parking at our complex and around the surrounding streets. And I can only imagine what a 30% increase in the number of cars would mean.

The reality is that the 3 streets surrounding the school are quiet residential streets and they cannot support such an increase in traffic.

I hope that common sense and good judgement will see to it that this application is rejected.

Regards,

Konrad
