**RE: DA2019/1234 - 0 Wharves And Jetties MANLY NSW 2095**

I am very concerned with this development application based on the size and location and the likelihood that it will create excessive noise for residents in the area. It seems to me that these business' continue to extend the size and boundaries of their original approvals. This area of the wharf already has significant dinning and drinking facilities and I don't believe this needs any additional capacity.
