Subject: Re: DA 2019/1260

Re DA 2019, 27/29 North Avalon Road.

To whom it may concern,
We strongly oppose this application...It is over development, benefiting only the developer. I have lived in north Avalon all my life and the congestion ,not just on the roads , but parking as well has increased to breaking point....most backstreets now have been reduced to one lane.

The SEPP Seniors Development is untenable with the bus stop being on Barrenjoey Road. The loss of habitat trees simply is NOT acceptable , in fact criminal, in a world that is suffering the effects of overpopulation and environmental destruction. I thought NBC had declared a climate emergency ?

I have read the submissions and the objections to this proposal and agree with the concerns that have been raised. We do not need nor want this type of development as is very clear from concerned residents. Please listen to us and don't allow a precedent to be set for North Avalon.

Thank you
