The Frenchs Forest Market is unique in its range of produce, our kids love going there for the atmosphere, almond croissants, fresh juices etc. I personally love that nothing or hardly anything there is wrapped in plastic, I bought bees wax sheets to replace cling wrap so I also enjoy the inspiration brought by storeholders who envision a better future for everyone. I have strawberry plants growing I bought at the Frenchs Forest market two or three years ago and we would love to come back again and again for these healthy experiences we share with like minded people that we meet there. I absolutely and 100% back up the progress of the market in the form of developments that improve the experience for all storeholders and customers, tourists and locals are attracted equally and I recommend it to all my Airbnb guests who have loved being informed about its existence!!.

Thanks for reading,
