4 / 69 Evans ST
Freshwater NSW

RE: Mod2017/0063 - 80 Evans Street FRESHWATER NSW 2096

working hours are already exceeded on this construction without any regard to residents in the area. The extended work hours are impacting greatly on the wellbeing of our own family along with the 20 others in our building alone. The noise level exceeds a normal residential build we should not have to endure this noise out of normal business hours.

Would you accept being woken at 6.10am every morning by the noise, would you be happy with construction noises in your home whilst trying to unwind from your day and enjoy your evening meal?

These extensions would not be allowable in a normal domestic build which has a lesser impact on it's neighbouring properties and should definitely not be allowable to continue on here.
