**RE: DA2018/1924 - Forest Way FRENCHS FOREST NSW 2086**

Good evening,

I recently learnt of the proposition to develop the forestway shopping centre. I think this is a great idea however it does raise questions around the increased traffic flow through local streets through which many kids and families walk to go to school/daycare.

The increased traffic to me raises concerns around the safety of kids when walking and riding on/near smaller roads as many shoppers will be cutting through these local streets instead of using the main roads of. Warringah & Forest Way.

Can the council please ensure they investigate this fully and provide results to the local residents?

Thanks and regards,  
Stuart
