I, the undersigned, certify that:

The above essential fire safety measure(s) have been installed in the above building or development in accordance with:

- tested prototypes /systems for application complying with relevant BCA requirements and manufacturers' specifications (where appropriate),
- All design criteria and documentations as specified above, or in the Design Certificate issued for the above works,

These items have been inspected, assessed and tested (where appropriate) to perform in accordance with:

- the design criteria and documentations as specified in the Design Certificate issued by the relevant Design Consultant for the above items, and/or
- the provisions of the Building Code of Australia, the relevant Australian Standards and other standard of performance as indicated above.

The assessment, inspection or testing have been carried out by an appropriately qualified and competent person from our company, who is practising in the relevant area of work with recognised relevant experience in the area of work being certified.

My employer is FLAME Services Australia Pty Ltd holding appropriate current insurance policy to the satisfaction of the building owner or the principal authorising the installation work being certified.
