RE: DA2020/0552 - 181 Allambie Road ALLAMBIE HEIGHTS NSW 2100

181 Allambie Rd is located directly above the headwaters of Curl Curl Creek and feeds into the catchment for Manly Dam. The construction activity of the proposed Aged Care Home will cause serious irreparable damage to the quality and the biodiversity of bushland that needs to be preserved and protected.

I note that in 2019, the Local Planning Panel refused the application (D.A. 2018/1667) stating that this development will have a seriously negative impact on the irreplaceable bushland and waterways of the adjoining Manly Warringah War Memorial State Park. The current DA is almost identical.

I strongly object to this DA.
