RE DA2020/1222

Dear Council

I am writing to express my strong support for the redevelopment of the backpackers to a residential property.

Not only is the design very sympathetic with the street scape and includes off-street parking reducing congestion on the street, transforming it to a single residence will be beneficial for the entire street. The backpackers are often noisy, especially late at night and take up valuable residential parking spaces.

To have a well-designed single residence as opposed to a backpackers will benefit the entire neighbourhood.

Regards  
Nadine Cattell
